

# The Surfer's Code

## DON'T DROP IN

The surfer on the 'inside', closest to the breaking part of the wave has right of way

## PADDLE WIDE

When paddling out stay wide of the break, out of the way of other surfers

## DON'T THROW YOUR BOARD

Whenever possible hang on to your board. Learn to 'duck dive' to get through waves. If you must discard your board make sure no one is behind you or nearby

## COMMUNICATE

When catching a wave let others near you know which way you're going

Respect everyone's right to enjoy the surf
